

TEXAS BULL HEADQUARTERS

Fuchs Limousin

For more than 36 years, we've put heavy selection pressure on breeding sound, high-performing, heavy-muscled, easy-keeping and fertile bulls and females that chart big EPDs and come from predictable bloodlines. Each fall we offer the fruits of our efforts with the very best FOXS bulls like these. We have a diverse selection ranging from red, polled PUREBREDS to black, polled LIM-FLEX.

Many are homozygous black and/or homozygous polled.

To find out more on our powerful FOXS bull selection, give us a call, visit our website or come by the ranch!
Superior genetics like these are available year-round at your Texas bull headquarters—Fuchs Limousin.
